

Incorporating art and technology in your classroom

*Increasing engagement through students'
desire to explore and create!*

Creating Play Doh Animals

Plan for 30 seconds
what you will make
and how you will
create it

Creating Play Doh Animals

Create
your
animal!

Creating Play Doh Animals

Add/change
something about
your animal

Creating Play Doh Animals

Look over your
animal to be sure you
got all of the details

Creating Play Doh Animals

Share your animal!
Put it out on your
table and walk
around to see what
everyone else
created!

*So... What did that have to do with
your class?*

It was the Writing Process!

- ▶ We planned our animal
- ▶ We created a draft
- ▶ We added/changed it
- ▶ We reviewed it to make sure it had all the details
- ▶ We shared it!

There are hundreds of ways to incorporate art in your classroom!

Drawing is great...and there is a time for lecture and listening...but incorporating building, painting, and art makes your classroom come alive!

- Sculpt the parts of a flower
- Create a character and write a story about them
- Build a habitat or landscape
- Create a community
- Paint your family
- and so much more!

The best part...

Kids typically remember better when they experience something so it's not only fun, it helps their learning!

*Fun Tidbit: Sept. 16 is
National Play Doh Day*

Celebrate with your students!

Incorporating Technology

Animoto

App that allows students to create professional looking videos with their own 10 second video clips and pictures.

I've used with as young as grade 2 and they've mastered it quickly.

Demo: <https://animoto.com/blog/news/creating-your-first-animoto-video/>

Apps that are easy to integrate

- ▶ croak.it - app for recording thirty second voice memos - great for giving directions at stations and it automatically generates a QR Code
- ▶ <https://www.youtube.com/watch?v=7DHAoNLtS-o>
- ▶ Tellegami - App that allows you to create a character, when you record your voice, your character's mouth moves. So fun for the students to create videos with this app! Also good for sub days so you (or your character) can still give directions
- ▶ <https://www.youtube.com/watch?v=CL5sCbD3BMg>

Apps that are easy to integrate

- ▶ Do Ink Green Screen - app that allows kids to use a “Green Screen” like newscasters/filmmakers do
- Lets them put themselves anywhere!
- ▶ <https://www.youtube.com/watch?v=LWAHxtpPp24>

- ▶ Stop Motion Studio- app for creating stop motion movies (like Gumby and claymation)

- ▶ <https://www.youtube.com/watch?v=LMwvC4eR9HQ>
